Professional Summary

Full-stack product marketing operator across B2B, SaaS, and product-led companies in Africa, North America, and Europe, moving fluidly across brand, growth, content, and product marketing rather than owning a single channel. I build the systems that ship: positioning, launch frameworks, lifecycle flows, community and content infrastructure, and the GTM tooling that runs them. My work has contributed to \$10M+ in qualified pipeline, supported 15+ product launches, and grown a self-built community and newsletter platform to 5,000+ subscribers at a 47% average open rate.
