PROFESSIONAL SUMMARY

Growth and GTM operator with 7+ years building self-serve SaaS systems across onboarding, lifecycle, and conversion, for early-to-growth stage B2B and product-led companies across North America, Africa, and Europe. I own the full post-signup path: onboarding activation, in-app and lifecycle messaging, and free-to-paid conversion, built as AI-leveraged systems rather than manual campaigns run by a larger team. My work has contributed to over \$10M in qualified pipeline, a 34% uplift in PLG trial activation and conversion, and a 72% migration of legacy free users to paid plans through a phased lifecycle sequence, while I run my own production stack of 123 custom AI marketing systems (31 published open source). More at jameppraise.xyz/work/clickup.
