PROFESSIONAL SUMMARY

GTM Engineer who builds the market-intelligence and automation layer underneath revenue teams. I design source-adapter data pipelines (Python, free and paid sources), signal-detection and scoring systems, and the routing logic that turns a raw signal into the right person's next action. I've built and run this exact architecture at production scale: a 10+ source prospect-data engine, live enrichment and verification pipelines, and n8n automation connecting Customer Relationship Management (CRM), Email Service Provider (ESP), and outbound tools, run live for MIA GTM's own outbound program. I work close enough to engineering to ship real systems and close enough to GTM to know what a sales team needs from them. More at <https://jameppraise.xyz/work/framer/>.

Selected Achievements:

- Built and run a **free-first prospect data engine** at production scale: 40+ reusable Python modules across 10+ source adapters (SEC EDGAR Form D, Socrata, Yelp Fusion, Clutch, VC portfolios, app stores), feeding a common schema, dedupe, enrichment, and signal-scoring pipeline. One live run: 409 companies sourced, 271 verified emails enriched, 362 signals scored, 405 leads generated.
- Built a **Clutch agency adapter, a tag-not-discard scoring step, and a self-built MX/SMTP email verifier** as part of that same engine, then extended it with GitHub, Hacker News, WordPress Plugin Directory and app store adapters to prove it works across verticals.
- Built **agentic growth infrastructure** across the Celerius Group: a centralized brand knowledge repo, Claude Code skills, Model Context Protocol (MCP) server integrations, and an automated content-distribution pipeline generating 10+ outputs from a single asset.
- Led an **ESP migration and integration build** at Reform (Userlist to Brevo): full DKIM/DMARC/SPF setup, list cleanup via Kickbox, and n8n workflow validation, plus built Reform's PartnerStack affiliate program from scratch.
- Built an **AI-enabled outbound GTM stack** at FunnelEnvy using Clay, n8n, Claude Code, and Smartlead, improving outbound reply rates by 27% and lifting enterprise meeting bookings by 31%.
- Rebuilt **lifecycle automation and PLG funnel systems** at Reform, increasing trial-to-paid conversion by 21% and trial activation by 34% through Brevo workflows.
- Led revenue operations at Cecure Intelligence Limited, generating 1,646 MQLs, 406 SQLs, and 629 demos, with \$326K in sales velocity.

PROFESSIONAL EXPERIENCE

GTM Engineering Consultant | MIA | April 2024 – Present

Marketing In Action (GTME Agency for SaaS, B2B & Product-led)

- Designing and operating AI-enabled revenue systems connecting positioning, enrichment, automation, and sales execution, from strategy through execution: outbound infrastructure, lifecycle automation, and agentic growth workflows.
- Design and build the outbound and data infrastructure MIA and its clients run on: source-adapter Python scrapers, enrichment and verification pipelines, self-built QA tooling, and AI-personalized outbound sequencing.
- Built a free-first prospect data engine (40+ reusable Python modules across 10+ sources) with enrichment via Prospeo and LeadMagic and verification via MillionVerifier.
- Built and maintain n8n automations connecting Brevo, Smartlead, and Resend for lead sync and real-time alerting.
- Integrated Model Context Protocol (MCP) servers, including n8n-mcp, Webflow, and Google Analytics via service accounts, plus browser automation, connecting Claude Code directly to live marketing tools and data.
- Cumulative impact: \$10M+ in qualified pipeline, plus outbound, prospect-data, and automation infrastructure built and reused across multiple engagements.

Growth, GTM & Demand Generation Lead | FunnelEnvy | Feb 2024 – April 2026

FunnelEnvy (B2B, Growth Marketing Service Provider)

- Designed and implemented an AI-enabled outbound GTM stack combining Clay, n8n, Claude Code, Smartlead, CRM workflows, and enrichment tools.
- Built agentic growth infrastructure including a centralized brand knowledge repo, Claude skills, and a Webflow MCP publishing pipeline.

- Built cross-tool measurement systems connecting HubSpot, GA4, and Looker for funnel visibility.

Product Marketing Manager | Reform | Feb 2024 – April 2026

Reform (SaaS, MarTech)

- Led the ESP migration from Userlist to Brevo, including full setup (DKIM, DMARC, SPF), list cleanup with Kickbox, and n8n workflow validation.
- Built Reform's PartnerStack affiliate program from scratch: partner recruiting, incentive structure, tracking, and swipe assets.
- Rebuilt lifecycle automation and PLG funnel systems across onboarding, nurture, and upgrade paths, increasing trial-to-paid conversion by 21%.
- Designed Reform's GTM engineering and partner distribution strategy, reframing Reform as programmable GTM infrastructure for builders and vibe coders.
