Professional Summary

Product marketing manager with 7+ years of GTM and PMM experience in B2B SaaS and product-led companies across Africa, North America, and Europe. Demonstrated track record of ramping into technically unfamiliar categories quickly, including AI-powered robotics, crypto/DeFi infrastructure, and developer-facing SaaS platforms, and building the positioning, messaging, and sales enablement systems that turn technical capabilities into pipeline. My work has contributed to over \$10M in qualified pipeline and supported 15+ product launches across the PLG and enterprise motion. More at jamespraise.xyz/work/upbound.
