Professional Summary

Product marketing operator across B2B, SaaS, and product-led companies in Africa, North America, and Europe. I build the systems that ship: positioning, launch frameworks, lifecycle flows, and the GTM tooling that runs them. Recent work has been building AI-native marketing infrastructure — agentic workflows, automated content pipelines, and open-source marketing agent skills that other operators run inside their own teams. My work has contributed to \$10M+ in qualified pipeline, supported 15+ product launches, and grown MIA Newsletter to 5,000+ subscribers at a 47% average open rate.
