Professional Summary

Product marketing manager with 5 years of focused experience across early-to-growth B2B and SaaS companies in Africa, North America, and Europe. I position technical products for buyers who don't share the builder's vocabulary: I've repositioned a SaaS into a new category, built the sales-enablement and competitive assets that shorten deal cycles, and shaped pricing and packaging across both self-serve (PLG) and sales-led (SLG) motions. My work has contributed to over \$10M in qualified pipeline and 15+ product launches. I'm a technical, AI-native marketer working directly on the SEO-to-AEO (AI-search) frontier.

Selected Achievements:

- Led Reform's repositioning from a general-purpose form builder into a conversion-focused category, driving a 34% trial-activation lift and 21% improvement in trial-to-paid conversion.

- Created Reform's Feature Launch Plan Framework, increasing new feature adoption 26% within 90 days.
- Built the ABM playbook and enterprise case studies at FunnelEnvy, lifting enterprise meeting bookings 31%.
