PROFESSIONAL SUMMARY

Marketer who builds the AI agents that run marketing workflows, and who has run the events, content calendars and reporting those workflows serve. I run the Marketing In Action newsletter, content calendar and event promotion on Claude Code skills and scheduled jobs, and I review every piece before it goes live. I use 81 agent skills for my own marketing and publish 34 of them on GitHub. The newsletter has 5,000+ subscribers across 86 countries. At FunnelEnvy I built the same pattern for a B2B team, where one approved asset became more than ten distribution outputs. At Bujeti, events and partnerships produced more than 200 of 1,331 marketing qualified leads in six months. I co-host Marketing & Chill, a marketer meetup in Lagos, and I am a Claude Community Ambassador. I work remotely with distributed teams and check every number against its source. More at jamespraise.xyz/work/linux-foundation.

Selected Achievements:

- Run the Marketing In Action newsletter on agents: Claude Code skills turn each approved issue into Substack, X Article and LinkedIn newsletter drafts for my review, and a daily sync records every live post in one registry. **5,000+ subscribers across 86 countries at a 47.5% average open rate.**
- Run my content calendar on scheduled agents that brief me twice a day and publish approved posts at set times on four channels, with a skill that drafts pre-event and post-event posts for each channel.
- Built a content pipeline for Wholesome Girlies, a product I run through Marketing In Action, that turns each website tool into a short video in three formats: **36 shorts live on the sales pages**.
- Built agentic growth infrastructure at FunnelEnvy: a brand knowledge repo, Claude skills, a four-phase content workflow with review gates and an automated publish pipeline, giving **10+ distribution outputs from a single content asset**.
- Ran events and partnerships at Bujeti that produced **200+ of 1,331 marketing qualified leads** in six months, and planned FunnelEnvy's first webinar: **41 registrations, 29% attendance and 39 new newsletter subscribers**.
